The meeting called to order ay 7:30 a.m. by Mark Johnson at the 2<sup>nd</sup> floor of the School Administration building. The Committee discussed final revisions to the Statement of Interest. It was the consensus of the Committee that the School Department has done an excellent job in the preparation of the Statement of Interest. We will not know until December as to whether or not the Statement of Interest is accepted. There was a discussion as to what the options were if the Statement of Interest was not accepted which would consist of going to Town Meeting for a project to be funded by the Town or submitting a new Statement of Interest.

There being no further business, the meeting was adjourned.
