The meeting commenced at 6:00 p.m. and the only item on the agenda was whether to recommend to the School Committee that Warrant Article 55 be reduced to \$160,000 which would be consistent with funding only those items which the Committee is comfortable would be accepted by the MSBA in the event the statement of interest is accepted. The item that was removed was the education plan which the Committee felt should be done by the designer who was hired to prepare the feasibility study. It was voted unanimously to make this recommendation.

There being no further matters to come before the meeting, it was voted to adjourn.

Mark B. Johnson, Chair
