Using the Family and Student Portals

Students and family members, particularly those who are primary adult contacts for a student, use the Family and Student portals to see the student’s information, academic progress, groups, and calendars.

**Note:** If you have not done so already, you need to [create an Aspen account](#).

With Aspen’s Family and Student portals, teachers, parents, and students have an arena for open communication. Parents have one login to access all of their children’s information, and students can enter course requests online.

For a quick peek at your school, class, and groups information, [use the Pages tab](#).

Depending on how your district or school has the portal set up, you can use the [Family/My Info tab](#) to view information including demographics, attendance, conduct, and transcripts.

For the current school year, use the [Academics tab](#) to view the following academic information for each class:

- Details, including student attendance summary and grades
- Assignments, including due dates and scores

You can also:

- Use the [Groups tab](#) to view the groups the student is enrolled in (such as Band and Math team)
- Use the [Calendar tab](#) to view a monthly calendar. Customize and color-code the calendar for each student to include their academic, extracurricular, and school events. You can also view assignments you should be working on and when they are due on your Calendar.
- [Report a bullying incident](#) from the Home page.

Viewing Student Information

In the Student portal, you can view information about yourself from the [My Info tab](#). In the Family portal, you can view information about your student from the [Family tab](#).

Email Notifications

When your school uses email notifications, parents and students can subscribe to receive email messages when any of the following conditions occur:

- A new daily attendance record is created.
- A new conduct record is created.
- A new visit to the health office record is recorded.
- A grade below the threshold you define is recorded.

To subscribe to email notifications:

1. Do one of the following:
   - In the Family portal: Click the Family tab.
   - In the Student portal: Click the My Info tab.

2. Click the Notification side-tab:
3. At the top of the page, any email addresses associated with your account appear. Select the checkbox next to each email address you want to receive notifications.

4. After viewing the description of each email, select the **Subscribe** checkbox if you want to receive that email notification.

**Note:** For the Grades notification, define a Grade Threshold between 1 and 100. The system will send an email when the student receives a grade below that percentage.

For each subscription, the system sends the appropriate messages to the designated email account. To view/change this account, click **Set Preferences** on the settings bar at the top of the page, then the **Security** sub-tab.

**Note:** Your changes to this screen are saved automatically. There is no Save button.

4. At the top of the page, in the Instructions box, read and follow the instructions for entering your requests. Note: If any of your courses are required or recommended by your teachers, they might automatically appear as requests when you first view the Requests page.

In the Primary requests box, select your requests for the different subject areas. For example, to select your request for a math course, click Select next to Math. The courses you can request appear:
Use the following tips when selecting a course to request:

- If your teacher recommended a course, a checkmark appears in the **Select** column. That course becomes a course request when you click **OK**.

- The **Status** column displays information about the course, such as if the course is full, or if this is the course your current teacher recommended for you. Depending on the subject, you can either select any course, or are required to accept the courses recommended for you.

- If your teacher entered comments about a recommendation for you, 📝 appears in the **Status** column. Click the icon to view the comments.

- If you are entering alternate requests, you can type a number in the **Priority** column to prioritize them; type 1 next to the alternate you want to try to be scheduled in first, type 2 in the next alternate you would want on your schedule, and so on:

- Your requests are automatically saved after you enter them on the Requests page. Your counselor can view them anytime.

7. After you complete entering your requests, click **Post** at the bottom of the page. This lets your counselor know that you are finished entering requests. If you have not selected enough courses to satisfy requirements for your academic track, the system lets you know which area you need to make more requests in:

- **Note:** Once your counselor approves your requests, you can no longer make changes to your course selections.
Use the Help Menu

Go to the Help menu to access information that will make using Aspen easier and more efficient. When you have a question about how to do something in the system, come to this menu first:

The Help menu contains the following options:
